Pipette manufacturers revise or modify the pipette cones of their pipettors as part of technical changes. As a result, our recommendations in the compatibility table are intended only as a guideline for orientation. In case of doubt, to be able to check the optimal fit and ejection behaviour of our tips with your pipette, we are happy to provide you with sample tips free of charge.

● = compatible
10 = limited pipetting volume
✗ = not recommended
= no testing carried out
MC = multi-channel pipette

SARSTEDT
